I am writing to apply for the Medical Scribe position at Angel City VA Recruitment. I understand the role requires careful documentation, accuracy, and the ability to work independently in a remote setting. I bring strong organizational skills and a detail-oriented approach from my background in software engineering.

Through my work as a full-stack developer, I have developed the discipline to follow precise instructions, document processes thoroughly, and maintain accuracy under time constraints. These habits translate well into the structured environment of medical scribing.

I am comfortable working remotely and communicating clearly with teams. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
