I am writing to apply for the Sr. Director, National Accounts role at Recess. Your mission to bring functional, better-for-you beverages to the mainstream through products that are both enjoyable and effective is compelling. I am drawn to how Recess combines creativity, design, and authenticity to build a lifestyle brand that connects with modern consumers.

Although my professional background is in software engineering and AI, I bring a strong analytical and results-oriented mindset that directly supports the core responsibilities of this role. In my work as a Web Developer, I have consistently delivered against targets, managed budgets, and built long-term partnerships with stakeholders. For example, at Explo-IT, I collaborated cross-functionally with teams to deliver scalable web applications, optimized performance through data-driven decisions, and maintained clear communication with clients and internal teams to ensure alignment with business goals.

One area that particularly interests me is managing trade and promotional budgets while driving profitable growth. Through my experience building full-stack applications, I have developed a disciplined approach to resource allocation, tracking KPIs, and ensuring spending aligns with strategic objectives. I am comfortable presenting data-driven insights and custom proposals to stakeholders, skills that translate directly to building and presenting sales pitch decks tailored to key accounts like Kroger and Albertsons.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my strategic thinking, hands-on execution, and ability to cultivate strong relationships will allow me to contribute meaningfully to Recess's growth. I have attached my CV for your review and look forward to the opportunity to discuss how I can support your national accounts team.

Sincerely,

Md Shahanur Islam Shagor
