I am writing to apply for the Public Relation Freelance role at Tiket.com. Your mission to eliminate travel misinformation and improve the experience for millions of users resonates with my own approach to building reliable, user-focused systems.

Although my professional background is in software engineering, I have developed strong written communication skills through years of creating technical documentation, drafting client-facing materials, and managing clear communication across multidisciplinary teams. I am comfortable producing press releases, media queries, and Q&A documents with attention to accuracy and tone.

I have a genuine interest in travel and tourism trends, and I stay informed about current media landscapes and social issues. I am creative, enjoy exploring collaboration opportunities, and can bring fresh ideas to PR programs while supporting daily media monitoring and competitor analysis.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident I can contribute to Tiket.com’s PR efforts and would welcome the opportunity to discuss how my skills align with your needs. I have attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
