I am writing to apply for the Joiner position at Isle of Man Public Service Careers. The opportunity to work across government sites such as schools, sports facilities, and health buildings, contributing directly to the safety and functionality of essential public services, is genuinely appealing.

My professional background is in software engineering, where I have spent over four years building and maintaining complex systems. This work has developed my ability to follow precise specifications, troubleshoot problems methodically, and deliver reliable results under practical constraints. I approach each task with the same attention to detail and commitment to quality that joinery demands.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to bring my strong work ethic, problem-solving mindset, and dedication to quality work to the Isle of Man Public Service. I have attached my CV for your review.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
