I am writing to apply for the Strategische:r E-Commerce Manager:in role at HOLZRICHTER Berlin. The opportunity to shape the digital experience for a brand that values timeless design and quality craftsmanship is genuinely compelling.

My professional experience as a full-stack web developer has given me a solid understanding of webshop processes, user experience, and data-driven optimization. I have worked extensively with Laravel, Next.js, React, and MySQL to build and maintain scalable web applications. This technical foundation allows me to contribute directly to the performance and continuous improvement of your webshop.

One area that particularly interests me is the focus on analyzing customer journeys, funnels, and conversion metrics. In my previous work, I have implemented features that improved user experience and optimized data flow. I am comfortable working with data to identify growth opportunities and translating those insights into actionable improvements.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how my experience can contribute to the continued growth of HOLZRICHTER Berlin.

Sincerely,

Md Shahanur Islam Shagor
