I am writing to apply for the Vertriebsleiter position at CAPCELLENCE Management GmbH. While my professional background is in software engineering and AI, I bring strong technical understanding, a structured approach to process building, and a hands-on ownership mindset that aligns with the growth-oriented culture you described.

In my previous roles as a web developer, I designed and delivered full-stack applications from concept to deployment. This required clear prioritization, systematic follow-through, and the ability to communicate complex technical details to non-technical stakeholders. I am comfortable working independently, taking responsibility for outcomes, and building repeatable processes.

I am fluent in English and Bengali, with working knowledge of Russian and Hindi. I am prepared to travel regularly within D-A-CH and European markets as needed.

I have attached my CV for your review. I would welcome the opportunity to discuss how my technical background and structured working style could contribute to your team’s growth.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
