I am writing to express my interest in the Content Creation (Minijob) position at CAPULET Jewelry. Your brand's focus on handcrafted, high-quality jewelry made in Germany is something I find genuinely compelling, and I would welcome the chance to contribute to your team's social media presence.

My professional background is in software engineering, where I have developed strong technical skills and a disciplined approach to work. I am fluent in English and have a working knowledge of German, which allows me to communicate effectively in a bilingual environment. I am a quick learner, a hard worker, and I am comfortable with digital tools and platforms.

I am based in Munich and am looking for a flexible, part-time role where I can apply my reliability and eagerness to learn. I am confident in my ability to quickly pick up the skills needed for content creation, including video shooting and editing, and I am excited by the prospect of developing creative ideas for social media.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to bring my energy, creativity, and strong work ethic to CAPULET Jewelry. Thank you for considering my application. I have attached my CV for your review.

Sincerely,

Md Shahanur Islam Shagor
