I am writing to apply for the Fachkraft Qualitˆtssicherung (m/w/d) B˝ckerei position at Badische Backstub' F. u. E. Weber GmbH. Your company's five-generation commitment to handcrafted baked goods and quality philosophy is impressive, and I would welcome the opportunity to contribute to maintaining those high standards.

Through my work as a software engineer, I have developed a methodical and detail-oriented approach that translates well to quality assurance. I am accustomed to monitoring systems for compliance with standards, maintaining detailed documentation, and ensuring that processes are followed precisely. My experience includes creating and managing production plans, test protocols, and audit reports in a technical context.

In previous work, I was responsible for monitoring internal quality and environmental standards, maintaining product safety, and ensuring compliance with guidelines. I have experience preparing for and conducting internal audits, as well as supporting supplier and customer audits. My background also includes creating process descriptions to ensure consistent quality and supporting the development of quality management systems.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and look forward to discussing how my skills in quality assurance and process management can benefit Badische Backstub'.

Sincerely,

Md Shahanur Islam Shagor
