I am writing to apply for the Customer Support Specialist Tier 1 position at Yembo. Your mission to bring trust and transparency to home services is something I find genuinely important, and I would welcome the opportunity to contribute to a team that values clear communication and user-focused support.

While my background is primarily in software engineering, I have developed strong customer-facing skills through direct client communication in my previous roles. As a Web Developer at Explo-IT and DataSoft LTD, I regularly interacted with clients to understand their requirements, explain technical solutions in plain language, and resolve issues promptly. This experience has taught me how to listen carefully, ask the right questions, and provide clear, actionable answers.

I am comfortable working remotely and have experience collaborating across different time zones and cultures. I am fluent in Bengali and English, with working knowledge of Russian and Hindi, which helps me communicate effectively with diverse users. I approach every interaction with patience and a genuine desire to help.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
