I am writing to apply for the Student Life Coach role at FindTutors. The opportunity to support learners on a growing global education platform aligns well with my experience in guiding and mentoring others through technical and personal development.

In my previous roles as a web developer, I regularly worked with junior team members, helping them understand complex workflows, debug code, and build confidence in their abilities. I found that clear communication, patience, and structured guidance made a real difference in how quickly they progressed. These same skills apply directly to coaching students through their academic and personal challenges.

One area that particularly interests me is the flexibility of this remote role. I have worked remotely for several years, collaborating across time zones and cultures. I am comfortable building rapport with students online, maintaining consistent check-ins, and adapting my coaching style to individual needs.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to FindTutors as a Student Life Coach.

Sincerely,

Md Shahanur Islam Shagor
