I am writing to express my interest in the Application Support Associate position at TurningPoint Healthcare Solutions. Your focus on technology-enabled complex condition management and holistic care delivery is something I find genuinely meaningful.

Through my professional experience as a Web Developer, I have developed strong troubleshooting and problem-solving skills. I have investigated reported issues, documented root causes and severity, and coordinated resolutions with technical teams. This experience maps directly to the triaging, investigation, and escalation responsibilities described in this role.

One area that particularly interests me is the emphasis on clear communication with submitters, clients, and end users. In my previous roles, I regularly communicated with stakeholders to understand issues, explain technical findings, and ensure timely resolution. I am comfortable working independently and using critical thinking to resolve problems efficiently.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
