I am writing to apply for the HR Business Partner position at TecTake GmbH. While my professional background is in software engineering, I have consistently taken on responsibilities that align closely with HR operations, including team coordination, process implementation, and supporting organizational growth.

In my previous roles, I have been actively involved in planning and supporting team expansion across multiple locations. I have worked directly with leadership to identify hiring needs, coordinate recruitment activities, and ensure smooth onboarding for new team members. This experience has given me a practical understanding of how to support workforce planning and talent acquisition in a growing company.

I have also been responsible for implementing and maintaining internal processes and guidelines. This includes creating documentation, ensuring compliance with established workflows, and continuously improving operational efficiency. My technical background has helped me approach these tasks with a structured, data-driven mindset.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my experience can contribute to TecTake’s continued growth.

Sincerely,

Md Shahanur Islam Shagor
