I am writing to apply for the Senior Social Media Account Manager position at Visual Statements GmbH. Your work as a hybrid social media publisher and agency, reaching millions through brands like VS and Lieblingsmensch, is impressive. I am interested in contributing to your team in Freiburg.

My professional background is in software engineering, where I have spent over four years delivering web projects and managing client relationships. At Explo-IT, I was responsible for managing projects independently, coordinating with stakeholders, and ensuring timely delivery. I am comfortable taking ownership of client accounts, developing strategies, and presenting results.

In my previous role, I worked closely with cross-functional teams, including design, content, and marketing. I handled timelines, budgets, and resources to ensure quality outcomes. I also supported pitches and new business initiatives by preparing proposals and presenting technical solutions to clients.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am looking for an onsite opportunity in Freiburg where I can apply my project management skills, strategic thinking, and hands-on approach. I have attached my CV for your review and look forward to discussing how I can contribute to Visual Statements GmbH.

Sincerely,

Md Shahanur Islam Shagor
