I am writing to apply for the Sachbearbeiter Buchhaltung Immobilienverwaltung position at hoch´†immobilien GmbH. Your description of a modern, fully digital property management company with flat hierarchies and a hands-on mentality aligns well with my working style.

Although my professional background is in software engineering, I bring a strong aptitude for structured work, data accuracy, and digital process optimization. My experience building and maintaining complex web applications has required meticulous attention to detail, systematic problem-solving, and a disciplined approach to managing data and workflows.

In previous roles, I have worked extensively with databases, financial data flows, and reporting systems. I am comfortable handling large datasets, ensuring data integrity, and generating accurate reports. My technical background gives me a natural affinity for digital tools and software solutions, which I believe would allow me to quickly adapt to your property management software and contribute to your digital-first workflow.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
