I am writing to apply for the Fachplaner HKLS / Ingenieur / Staatlich geprˆ…fter Techniker position at DP Plan Planungsbˆ…ro fˆ…r technische Gebˆ‰udeausrˆ…stung GmbH. Your focus on digitalized processes across all HOAI phases and your commitment to quality in TGA planning caught my attention.

Through my software engineering education and hands-on project work, I have developed strong technical problem-solving abilities, a structured approach to planning, and experience working with complex systems. I am comfortable translating technical requirements into clear documentation and collaborating with both technical and non-technical stakeholders.

One area that particularly interests me is the development of technical concepts and the creation of planning documents. In my previous work, I have been responsible for designing system architectures, writing detailed specifications, and ensuring that all components work together reliably. I bring the same level of care and precision to technical planning and documentation.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to contribute to your team and grow within the TGA planning field. My CV is attached for your review. I look forward to the possibility of discussing how I can support your projects.

Sincerely,

Md Shahanur Islam Shagor
