I am writing to apply for the Patient Care Coordinator position at Winning Assistants. While my professional background is in software engineering, I bring strong organizational discipline, clear communication skills, and a proven ability to manage complex workflows remotely.

In my previous roles as a web developer, I was responsible for coordinating tasks across multiple teams, managing project timelines, and ensuring clear communication between technical and non-technical stakeholders. These experiences have equipped me with the attention to detail and process-oriented mindset needed to support patient care coordination effectively.

I am comfortable working in remote environments and have experience collaborating with international teams across different time zones. I am fluent in English and Bengali, which allows me to communicate clearly with diverse groups of people.

I am confident that my ability to stay organized, follow procedures carefully, and communicate proactively will allow me to contribute positively to your team.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
