I am writing to apply for the Social Media and Content Manager position. Although my professional background is in software engineering, I bring strong communication skills, technical content creation experience, and a structured approach to managing digital workflows.

In my previous roles as a Web Developer, I regularly created technical documentation, wrote clear project descriptions, and communicated complex ideas to both technical and non-technical stakeholders. I also managed content within the applications I built, including multilingual interfaces and user-facing copy.

I am comfortable working remotely and collaborating across time zones. I am fluent in Bengali and English, with working knowledge of Russian and Hindi, which helps me communicate effectively in international teams.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
