I am writing to apply for the Corporate Payroll Administrator position at PENN Entertainment, Inc. While my professional background is in software engineering, I bring strong analytical capabilities, meticulous attention to detail, and experience working with complex data systems that are directly relevant to payroll administration.

Through my work as a Web Developer, I have developed a disciplined approach to data accuracy and process management. Building and maintaining applications that handle financial transactions, user data, and reporting workflows has given me a solid foundation in working with numbers, ensuring data integrity, and following structured procedures. I am comfortable working with databases, spreadsheets, and systems that require precision and consistency.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my analytical mindset, commitment to accuracy, and ability to learn new systems quickly would allow me to contribute effectively to your payroll operations team.

I have attached my CV for your consideration and would welcome the opportunity to discuss how my skills align with the needs of PENN Entertainment.

Sincerely,

Md Shahanur Islam Shagor
