I am writing to apply for the Medical Writer position at Lumanity. Your mission to improve health outcomes by accelerating access to life-changing medicines through strategy, evidence, and communication is compelling.

While my background is in software engineering, I bring strong analytical thinking, precise attention to detail, and excellent written communication skills. I am accustomed to producing clear, accurate documentation and managing complex information across multiple projects simultaneously.

In my professional experience as a Web Developer, I regularly wrote technical documentation, client-facing reports, and project proposals. I am skilled at adapting my writing style for different audiences and maintaining high editorial standards under tight deadlines.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
