I am writing to apply for the Landwirt als Immissionsgutachter position at Landvolk Niedersachsen - Kreisverband Mittelweser e.V. Your organization's role as an agricultural policy representative and service provider for 5,000 members, combined with your ISO 9001 certification, demonstrates a commitment to quality that I respect.

Although my professional background is in software engineering, I bring strong analytical thinking, structured problem-solving, and the ability to work independently and in teams. I am a quick learner who is ready to develop expertise in immission assessments for odor, particulate matter, and ammonia/nitrogen under BImSchG and TA Luft through the training you provide.

In previous work, I have coordinated with multiple stakeholders, managed documentation, and maintained clear communication with clients and authorities. I am comfortable with field visits and hold a valid driving license (Class B).

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
