I am writing to apply for the ˆ ffentlichkeitsarbeit position at STUDIO | STADT | REGION. Your focus on transparent, self-organized teamwork and sustainability-oriented architecture and urban development is genuinely interesting to me.

As a software engineer with experience in web development, I have practical skills that directly support the responsibilities outlined in this role. I have built and maintained websites using technologies such as Next.js, Laravel, and Tailwind CSS, which would allow me to take ownership of your website's ongoing development and content updates.

Managing content, preparing project information for external communication, and coordinating with a team are tasks I have handled regularly in my previous work. At Explo-IT, I collaborated closely with stakeholders and engineering teammates to deliver projects, ensuring that technical work aligned with broader communication goals.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I would welcome the opportunity to contribute to your team's communication efforts. My CV is attached for your review.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
