I am writing to apply for the Video Editor internship (Pflichtpraktikum) at MainTea GmbH. Your portfolio of brands including Besser im Glas, Bubble Pop, PRO2BE, and Honest Coco represents exactly the kind of creative, fast-moving environment where I want to develop my video editing skills.

What stands out to me about MainTea is the emphasis on character and hands-on learning. You are looking for someone who is social media-affin, knows CapCut, and has the motivation to grow. That describes me well. I follow Instagram and TikTok trends closely and understand what makes content perform organically.

I have experience cutting videos and creating content that resonates with audiences. While my professional background is in software engineering, I bring strong technical aptitude, attention to detail, and a willingness to learn quickly. I am comfortable with CapCut and eager to develop my skills further in a real brand environment.

In addition to my technical background, I work effectively across teams and communicate clearly. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to bring fresh ideas, learn from your team, and contribute to your brands' social media presence. I have attached my CV for your review and look forward to the possibility of discussing how I can contribute to MainTea GmbH.

Sincerely,

Md Shahanur Islam Shagor
