I am writing to apply for the Video Editor:in (Werkstudent:in) position at MainTea GmbH. Your portfolio of brands, including Besser im Glas, Bubble Pop, PRO2BE, and Honest Coco, represents an exciting opportunity to contribute to content creation across multiple food and beverage markets.

Although my professional experience is primarily in software engineering, I have developed a strong understanding of social media content through personal projects and consistent engagement with platforms like Instagram and TikTok. I know what makes short-form video work, from pacing and transitions to hooks and audio selection, and I am comfortable using CapCut to edit Reels, organic content, and UGC-style videos.

What draws me to this role is the hands-on nature of the work. I enjoy taking raw footage and shaping it into finished content that resonates with an audience. I am confident I can support your team in editing street interviews for Bubble Pop, event content for Honest Coco, and UGC content for Besser im Glas, while also bringing fresh ideas to the table.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to MainTea GmbH’s content creation efforts.

Sincerely,

Md Shahanur Islam Shagor
