I am writing to apply for the Finanzberater im Nebenberuf position at HackFinanzen. The opportunity to work in a responsible part-time financial role while helping clients achieve independence aligns with my interest in meaningful, people-oriented work.

Through my work as a software engineer, I have developed strong analytical and organizational skills. I am used to managing complex data accurately, following structured workflows, and communicating clearly with both technical and non-technical stakeholders. These skills translate well into client-facing financial support.

I value reliability and careful work. In previous roles, I handled sensitive client data, maintained detailed records, and ensured that every task was completed with precision. I am comfortable working independently and managing my own schedule.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the chance to discuss how my background can contribute to the HackFinanzen team.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
