I am writing to apply for the Teamleiter Customer Service position at JˆRGEN TAUSCH Recruitment und Coaching. The opportunity to lead and develop a customer service team while contributing to process improvements in the pharmaceutical distribution sector is one that aligns well with my professional background.

Through my experience as a Web Developer, I have worked closely with cross-functional teams, managed project timelines, and contributed to the improvement of workflows and operational systems. I am comfortable taking ownership of processes, tracking performance against defined goals, and collaborating with stakeholders to ensure smooth daily operations.

One area that particularly interests me is the combination of team leadership with hands-on involvement in day-to-day operations. I have experience working directly with end users and customers, understanding their needs, and ensuring service quality through clear communication and structured follow-through. I am confident in my ability to support and develop a team while staying connected to the operational reality of the business.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my experience can contribute to your team.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
