I am writing to express my interest in joining the freelance creative roster at Interactive Strategies. Your work with nonprofits and mission-driven organizations resonates with me, and I appreciate the focus on design that is both beautiful and purposeful.

My design work centers on UX and web design, where I combine aesthetic sensibility with functional problem-solving. I have experience building responsive interfaces using Figma, Tailwind CSS, and modern frontend frameworks, and I understand how to extend brand identity across visual systems, from style guides to live web experiences.

In previous freelance and project work, I have delivered complete web platforms that required thoughtful layout, clear navigation, and consistent visual language. I approach each project with a strategic mindset, ensuring that design decisions support the client's goals while remaining user-friendly and accessible.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to contribute to Interactive Strategies' upcoming projects.
