I am writing to apply for the Junior Admin Assistant position at VITA CV. The part-time remote nature of this role is well-suited to my current situation, and I am confident in my ability to handle administrative tasks efficiently and reliably.

Through my work as a full-stack developer, I have developed strong organizational and time-management skills. Coordinating with clients, managing project timelines, and maintaining clear documentation have been central to my workflow. I am comfortable working independently and communicating effectively with remote teams.

I am proficient with digital tools and platforms, including Google Workspace, project management software, and communication tools like Slack and email. I can quickly learn new systems and adapt to your existing workflows without requiring extensive training.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can support the VITA CV team in this role.

SPEEDILY

Sincerely,

Md Shahanur Islam Shagor
