I am writing to apply for the Operations Support Manager position at The Chartered Institute for Securities & Investment (CISI). Your organisation's role as a leading professional body for securities and investment professionals, combined with your strategic partnership with the Financial Academy in Riyadh, makes this an opportunity I find genuinely compelling.

Through my professional experience coordinating technical projects and managing stakeholder relationships, I have developed the organisational skills and customer-focused mindset that this role requires. I have worked closely with internal teams and external partners to ensure smooth delivery of services, identify areas for improvement, and maintain strong working relationships throughout project lifecycles.

A key part of my previous work involved acting as a liaison between development teams, clients, and delivery partners. I coordinated end-to-end project workflows, tracked progress against milestones, and proactively addressed operational challenges before they impacted delivery. This experience has given me a practical understanding of how to support complex operational requirements while maintaining a focus on quality and customer satisfaction.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in operations support and stakeholder coordination can contribute to CISI's work in Riyadh.

Sincerely,

Md Shahanur Islam Shagor
