I am writing to apply for the Social Support Coordinator position at Focusrite. Your mission to make music easy to create and your reputation as a leader in music technology are genuinely inspiring. I am drawn to the opportunity to represent such a respected brand and engage with its community of audio professionals and enthusiasts.

Although my professional background is in software engineering, I have developed strong communication and collaboration skills through years of working with international teams and stakeholders. I understand the importance of clear, friendly, and professional interactions, especially when representing a brand in public-facing roles. I am comfortable engaging with diverse audiences and building rapport with advocates and communities.

I have experience monitoring online conversations, responding to inquiries, and reporting feedback. In my previous roles, I worked closely with cross-functional teams to ensure timely and accurate communication. I am confident in my ability to maintain a positive presence on social platforms, respond to customer queries in a problem-solving manner, and contribute to hitting social KPIs.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application. I look forward to the possibility of contributing to the Focusrite team.

Sincerely,

Md Shahanur Islam Shagor
