I am writing to apply for the Scheduling Coordinator position at Classet. The role involves coordinating schedules and ensuring smooth operations, which aligns with my experience in managing complex workflows and building systems that require precision and reliability.

Through my work as a full-stack developer, I have developed strong organizational and coordination skills. I have built platforms that handle multiple user roles, real-time updates, and data synchronization, all of which require careful planning and attention to detail.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
