I am writing to apply for the Customer Service Agent position at Seed & Sprout, the Australian eCommerce brand focused on sustainable living. Your mission to make eco-friendly products accessible and joyful aligns with my interest in supporting brands that create meaningful impact.

I understand that Seed & Sprout is building a warm, collaborative remote team with big growth plans for 2026. I work best in environments where contributions are valued and communication is clear. Having worked remotely with teams across Bangladesh, Russia, and Armenia, I am comfortable with asynchronous workflows, time zone coordination, and maintaining reliable daily output.

While my professional background is in software engineering, I bring strong written English and professional communication skills developed through years of client-facing work and international collaboration. I am detail-oriented, organized, and experienced in managing multiple tasks simultaneously. I am also a quick learner and confident I can become proficient with Gorgias, Shopify, and Loop quickly.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can contribute to Seed & Sprout’s customer experience team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
