I am writing to apply for the Business Development Representative role at Bucket Listers. Your mission to help people discover unique experiences and build lasting memories resonates with me. I have always been drawn to platforms that connect people with meaningful activities, and I would welcome the chance to contribute to your growing marketplace.

Although my professional background is in software engineering, I have developed strong organizational, communication, and relationship-building skills through years of collaborating with stakeholders, managing project pipelines, and delivering solutions in remote-first teams. I am comfortable learning new systems, tracking metrics, and iterating on processes to improve outcomes.

In my previous roles, I worked closely with internal teams and external partners to define requirements, communicate progress, and ensure successful delivery. I am skilled at building trust through clear, consistent communication and following through on commitments. I am also experienced in analyzing data and using insights to refine workflows.

I am a self-starter who thrives in collaborative environments. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy working with people from diverse backgrounds. I am eager to bring my organizational skills, persistence, and enthusiasm to the Bucket Listers team.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
