I am writing to apply for the Online Marketing Manager / Customer Success (m/w/d) position at KD Kellerdigital GmbH. The combination of direct client engagement, employer branding, and campaign coordination described in the role aligns well with my professional experience.

One area that particularly interests me is the mix of customer success and marketing strategy. In my previous work, I have been responsible for direct communication with clients and stakeholders, managing information flow between teams, and ensuring that project requirements are clearly understood and executed. This has given me practical experience in proactive client communication, coordination with design teams, and maintaining reliable follow-through on commitments.

Through my work as a Web Developer, I have developed strong organizational skills and the ability to handle multiple responsibilities independently. I am comfortable working under pressure, managing deadlines, and adapting to changing priorities. My experience has taught me to communicate clearly, listen carefully to client needs, and take ownership of outcomes.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in client communication and project coordination can contribute to your team.

Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
