I am writing to apply for the Werkstudent:in Content Marketing position at MediPulse. Your mission to modernize healthcare practices through innovative software is compelling, and I appreciate the focus on creating content that genuinely helps doctors and practice managers work smarter.

Although my professional background is in software engineering, I have consistently created clear, user-focused content for the web platforms I built. For the Travel Agency App and Newsroom Management projects, I wrote blog posts, documentation, and website copy that explained technical features in simple terms for non-technical users. This experience has given me a practical understanding of how to structure content for different audiences and channels.

I am comfortable working independently, planning content, and managing multiple tasks. I have a good sense for relevant trends and formats, and I am eager to apply my writing and communication skills to develop social media content, blog posts, newsletters, and website copy for MediPulse.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I would welcome the opportunity to contribute to MediPulse’s content marketing efforts. My CV is attached for your review.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
