I am writing to apply for the Werkstudent:in Performance Marketing position at MediPulse. Your mission to modernize healthcare through innovative software is compelling, and I appreciate the focus on measurable impact through data-driven campaigns.

Although my primary experience is in software engineering, I bring strong analytical and technical capabilities that are directly relevant to performance marketing. I have worked extensively with data pipelines, reporting systems, and automation tools, which are essential for planning, executing, and optimizing paid ad campaigns. My ability to work with data, derive actionable insights, and iterate on strategies aligns well with the responsibilities of this role.

In my professional experience as a web developer, I built systems that required continuous monitoring, performance tracking, and optimization. I am comfortable with A/B testing, analyzing metrics, and making data-informed decisions to improve outcomes. I also have experience automating repetitive tasks, which can help streamline ad creative testing and reporting workflows.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to bring my analytical mindset and technical skills to MediPulse’s marketing team. I have attached my CV for your review and look forward to the possibility of contributing to your growth.

Sincerely,

Md Shahanur Islam Shagor
