I am writing to apply for the Social Media Manager position at B:O:S Engergieberatung. Your work in renewable energy, particularly in photovoltaics and heat pumps, is an area I find genuinely important, and I would welcome the opportunity to help communicate your projects and successes to a wider audience.

My background is in software engineering, but I have always worked at the intersection of technology and visual communication. Through my experience building full-stack applications, I have developed strong skills in content creation, UI/UX design using Figma, and video and image editing. I am comfortable producing and editing visual content for digital platforms.

In previous roles, I have been responsible for creating engaging interfaces, managing multimedia assets, and ensuring that digital content is both technically sound and visually appealing. I am confident in my ability to plan, film, and edit content for TikTok, Instagram, and YouTube, as well as manage community interactions and analyze engagement metrics.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
