I am writing to express my interest in the Analista de Sucesso do Cliente Pleno position at ZENVIA. While my professional background is in software engineering, I bring a combination of technical expertise, clear communication, and a problem-solving mindset that aligns well with customer success.

In my previous roles as a web developer, I worked closely with stakeholders and clients to understand their needs, translate requirements into technical solutions, and ensure smooth delivery. This experience taught me how to communicate effectively with both technical and non-technical audiences, manage expectations, and resolve issues promptly.

One area that particularly interests me is the opportunity to apply my technical understanding to improve customer outcomes. Having built and maintained applications, I can quickly grasp product functionality, troubleshoot issues, and provide meaningful guidance to customers.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my skills can contribute to the ZENVIA team.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
