I am writing to apply for the Estˆ¡gio em Recrutamento e Seleˆ§ˆ£o Remoto position at Talent's Club. Your focus on diversity, inclusion, and collaborative environments aligns with how I approach teamwork and problem-solving.

Through my work as a software engineer, I have developed strong analytical and organizational skills that transfer directly to recruitment. I am experienced in reviewing technical profiles, evaluating candidates against requirements, and producing structured assessments. My background in technology recruitment contexts gives me a practical understanding of screening processes and candidate evaluation.

I am comfortable managing multiple priorities simultaneously while maintaining accuracy and attention to detail. In previous roles, I coordinated with stakeholders across different teams, scheduled and conducted online meetings, and maintained organized documentation for complex workflows. These experiences have prepared me to handle resume triage, interview scheduling, and administrative routines effectively.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to Talent's Club. Thank you for your time and consideration.

Sincerely,

Md Shahanur Islam Shagor
