I am writing to apply for the Help Desk Specialist position at Zenius Corporation. Your focus on Grants Management, IT Modernization, and support for Federal agencies aligns well with my technical background and my interest in building reliable, user-focused systems.

Through my work as a Web Developer, I have gained practical experience supporting web-based applications and enterprise systems. I have worked on troubleshooting application access, user account issues, and workflow-related problems. I am comfortable managing support requests, tracking tickets, and ensuring issues are resolved according to service level requirements.

One area that particularly interests me is creating clear documentation and training materials. In my previous roles, I wrote technical documentation, user guides, and contributed to team knowledge-sharing sessions. I also have experience conducting onboarding sessions and helping users become confident with new systems.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in application support and user training can contribute to Zenius Corporation’s continued growth.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
