I am writing to express my interest in the Assistant Director Convenings position at AccessLex Institute. While my background is primarily technical, I bring strong organizational, coordination, and communication skills developed through managing complex full-stack projects and collaborating with cross-functional teams.

Over the past four years, I have worked as a full-stack developer, delivering scalable web applications using Laravel, Next.js, React, and Node.js. My work has involved designing RESTful APIs, implementing role-based authentication, integrating payment gateways, and building real-time features. These projects required careful planning, stakeholder coordination, and clear communication across technical and non-technical teams.

One area that particularly interests me is the opportunity to apply my project coordination and systems thinking skills to convening and event management. In my previous roles, I was responsible for managing development timelines, coordinating with clients, and ensuring smooth delivery of multi-module platforms. This experience has given me a practical understanding of how to organize complex workflows and bring people together around shared goals.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how my background in project coordination and systems delivery can contribute to the work at AccessLex Institute.

Sincerely,

Md Shahanur Islam Shagor
