I am writing to apply for the Elementary Teacher K-5 position at Stellar Virtual. While my professional background is in software engineering and AI, I bring strong analytical, communication, and problem-solving skills that are directly applicable to supporting elementary education in a virtual setting.

Through my work developing educational platforms and tools, I have built systems that simplify complex workflows, improve user engagement, and deliver clear, actionable information. These experiences have strengthened my ability to explain concepts clearly, adapt to diverse needs, and maintain organized, efficient processes.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
