I am writing to apply for the Paralegal / Senior Paralegal position at Leadenhall Search & Selection. While my professional background is in software engineering, I bring strong analytical, organizational, and documentation skills that are directly applicable to a paralegal role.

In my previous work as a web developer, I managed complex project workflows, maintained detailed technical documentation, and ensured data accuracy across multiple systems. These responsibilities required meticulous attention to detail, the ability to track and organize large volumes of information, and consistent follow-through on deadlines.

I have experience working in remote, cross-cultural teams and am comfortable handling administrative tasks, compliance-related processes, and legal document management. My background in technology also means I can quickly adapt to legal software, case management systems, and digital document workflows.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
