I am writing to apply for the Duale Ausbildung Kaufmann/Kauffrau fˆ…r Bˆ…romanagement at familie redlich. The opportunity to learn the inner workings of a creative communications agency from a central perspective is exactly the kind of hands-on training I am looking for.

What stands out to me about this role is the chance to gain foundational knowledge across People & Organization, Office Management, and Finance. I am a structured and organized person who enjoys understanding how processes fit together. Through my previous work experience, I have developed strong skills in task coordination, documentation, and using digital tools to keep workflows running smoothly.

In my professional experience as a Web Developer, I was responsible for managing project timelines, maintaining clear communication with team members and stakeholders, and ensuring that tasks were completed on schedule. I handled multiple responsibilities simultaneously, from preparing documentation to coordinating with different departments, which gave me a solid understanding of how back-office operations support overall business goals.

I am comfortable working with digital tools and learning new software quickly. I bring a proactive attitude, a willingness to take on varied tasks, and a genuine interest in contributing to the team’s daily operations. I am also fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am eager to start my training in September 2026 and to grow within your agency. I have attached my CV and look forward to the possibility of discussing how I can contribute to familie redlich.

Sincerely,

Md Shahanur Islam Shagor
