I am writing to apply for the Call Agent fˆ…r die Terminierung position at Target TV. Your mission to make television advertising accessible and efficient for businesses of all sizes is a compelling one, and I am interested in contributing to your team in Mannheim.

While my professional background is in software engineering, I have developed strong communication and organizational skills through years of client-facing project work and cross-functional collaboration. I am comfortable speaking with people, listening carefully to their needs, and maintaining accurate records.

In my previous roles, I worked closely with sales and product teams to gather feedback, coordinate schedules, and ensure smooth delivery of services. I am experienced with CRM-like systems and data management, and I take a reliable, self-organized approach to my work.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the opportunity to discuss how I can support Target TV’s growth and help connect businesses with your innovative advertising solutions.

Sincerely,

Md Shahanur Islam Shagor
