I am writing to apply for the Junior Client Service Associate position at Plutos Vermˆ¶gensverwaltung AG. Your firm's long-standing reputation in wealth management and the clear career path toward becoming a client advisor are exactly the kind of opportunity I am looking for as I build my career in financial services.

Although my professional background is in software engineering, I have developed strong skills in digital tools, data management, and process optimization that are directly relevant to this role. I am comfortable working with CRM systems, maintaining accurate client records, and handling administrative tasks with precision. My experience building and maintaining web applications has given me a structured, detail-oriented approach to work that I believe will serve me well in supporting your wealth managers.

In my previous roles, I worked closely with teams to manage client-facing projects, prepare documentation, and ensure smooth operational workflows. I am used to collaborating with multiple stakeholders, meeting deadlines, and continuously improving processes. I am eager to apply these skills to support your advisors in preparing client documents, managing deposits, and handling regulatory tasks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to start this new path and grow within your organization. I have attached my CV for your review and look forward to discussing how I can contribute to Plutos Vermˆ¶gensverwaltung AG.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
