I am writing to apply for the Account Manager (TikTok Shop) position at ADBAKER. Your work in social commerce and your position as a leading TikTok Shop agency in Germany is impressive, and I am interested in contributing to your team's continued growth.

My professional experience has been in software engineering, where I have worked directly with clients to understand their business goals, manage project timelines, and deliver results. In my role at Explo-IT, I was the primary contact for multiple stakeholders, coordinating between technical teams and clients to ensure expectations were met and partnerships developed. This required clear communication, proactive problem-solving, and a structured approach to managing workflows.

One area that particularly interests me is the opportunity to learn TikTok Shop management from scratch. The job description makes it clear that no prior TikTok Shop experience is needed, and I am ready to invest the time to become proficient. I am a quick learner and have a track record of picking up new platforms and technologies independently.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. I would welcome the chance to discuss how my client management skills and willingness to learn can contribute to ADBAKER's success.

Sincerely,

Md Shahanur Islam Shagor
