I am writing to apply for the Senior Account Manager (TikTok Shop) position at ADBAKER. Your agency's position as a leading TikTok Shop partner in Germany and your work with brands like Aylashes and More Nutrition is impressive. I am drawn to the opportunity to help shape the future of social commerce with a team that is building this space from the ground up.

Although my professional background is in software engineering, I have consistently worked in client-driven environments where communication, trust, and results matter most. In my role as a Web Developer, I was the primary technical contact for multiple clients, managing expectations, translating business goals into technical requirements, and ensuring timely delivery. I learned how to build long-term relationships by understanding client objectives deeply and proactively identifying opportunities for growth.

One area that particularly interests me is the operational side of account management. I have experience managing complex workflows, coordinating across teams, and maintaining clear priorities under deadlines. I am comfortable with data analysis and KPI tracking, which I believe will translate well into monitoring shop performance metrics like GMV, CR, and ROAS. I am also eager to learn the specifics of TikTok Shop management, including product listings, catalog optimization, and pricing strategies.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am ready to bring my structured approach, client focus, and willingness to learn to ADBAKER. I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to your team.

Sincerely,

Md Shahanur Islam Shagor
