I am writing to express my interest in the Social Media Advertising role at addingup. While my professional background is in software engineering, I bring strong analytical and data-driven decision-making skills that are directly applicable to campaign optimization and performance analysis.

In my previous work as a Web Developer, I regularly collaborated with clients to understand their goals and translated those into technical strategies that delivered measurable results. I am comfortable working in small teams, taking ownership of projects, and ensuring deadlines are met consistently.

I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review. Thank you for considering my application.

Sincerely,

Md Shahanur Islam Shagor
Full-Stack Developer & AI Engineer
