I am writing to express my interest in the Wirtschaftsprˆ…fer/in position at Pickel & Partner. Your firm's reputation as one of the largest interdisciplinary practices in the region, with over 50 years of experience in auditing, tax, and legal advisory, is impressive. I am drawn to your emphasis on creating an environment where individuals can develop their own career paths while working collaboratively.

My background is in software engineering, where I have spent over four years building complex, data-driven systems. This work has required a structured and meticulous approach to problem-solving, strong analytical capabilities, and the ability to communicate complex information clearly to both technical and non-technical stakeholders. I am accustomed to taking ownership of tasks, working independently, and ensuring accuracy in every detail.

One area that particularly interests me is your focus on a structured and careful working style, combined with an affinity for digital tools. In my professional experience, I have designed and developed full-stack applications that handle sensitive data, requiring precise logic, thorough testing, and a deep understanding of data integrity. This has honed my ability to perform detailed analyses and manage complex workflows systematically.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I am confident that my analytical mindset, attention to detail, and structured approach would allow me to contribute effectively to your team. I have attached my CV for your review and welcome the opportunity to discuss how my skills align with the needs of Pickel & Partner.

Sincerely,

Md Shahanur Islam Shagor
