I am writing to apply for the Mitarbeiter Unternehmensentwicklung / Business Development position at InkuPlay UG. The opportunity to work directly with the management team on strategic and operational topics in a growing gaming and entertainment company is what draws me to this role.

Through my professional experience, I have supported business planning, market analysis, and process optimization. I have worked on identifying new opportunities, building partnerships, and creating structured presentations and business cases. These responsibilities align closely with the tasks described in this position.

One area that particularly interests me is the chance to contribute to growth strategies and partner development. In previous work, I have been involved in identifying potential collaborators, preparing decision templates, and supporting project planning. I am comfortable working independently and taking initiative on new tasks.

In addition to my technical experience, I work effectively across multidisciplinary teams and communicate clearly with both technical and non-technical stakeholders. I am fluent in Bengali and English, have working knowledge of Russian and Hindi, and enjoy collaborating in international and cross-cultural environments.

I have attached my CV for your review and would welcome the opportunity to discuss how I can contribute to InkuPlay’s continued development.

Best regards, Md Shahanur Islam Shagor

Sincerely,

Md Shahanur Islam Shagor
